Phoenix, USA – March 8, 2011

Anadarko Midstream Group Selects Meter*Share™ for Sharing Pipeline Data with its Customers

Service replaces and enhances in-house solution to enable Midstream customers to reconcile actuals vs nominations, and to access critical documents and reports

Anadarko manages midstream energy assets. in East and West Texas, the Mid-Continent and the Rocky Mountains. Meter*Share is a cloud-based service that allows Anadarko to share real-time meter data and information with their pipeline customers and is anticipated to realize significant improvement in business processes and communications with internal and external customers.

Data to be shared through Meter*Share will come from Anadarko's CygNet SCADA, Flow-Cal measurement, Quorum TIPS gas plant accounting and EMK3 Senergy nominations systems. Meter*Share will act as the unifying layer that relates entities described in each of these system to each other so that data from each independent environment can be presented in context to users through a secure web site and standard or custom reports and alerts.

About Industrial Evolution

Founded in 2000, Industrial Evolution was an innovator in offering Data-as-a-Service to the industrial market. We collect real-time process data from systems and devices, and make it available securely via the internet.

In January 2016, Yokogawa Electric Corporation announced the acquisition of Industrial Evolution to strengthen its provision of advanced solutions to the process industries. The acquisition of Industrial Evolution, a provider of cloud-based plant data sharing services, was carried out through Yokogawa Venture Group, Inc., a wholly owned Yokogawa subsidiary. The press release is available at: <http://www.yokogawa.com/pr/news/2016/pr-news-2016-0107-en.htm>.
