Major Solar Operator Selects Power*Share™ to Monitor Solar Power Generating Assets

Project involves fast-track remote monitoring of key commercial-scale assets

A major operator of commercial- and utility scale solar power generating assets has selected Power*Share to keep track of operations and to retain a complete record of the operating parameters of their key assets.

Power*Share is built on the PI System from OSIsoft so has the robustness and scalability required, and since it is delivered as an out-of-the-box DaaS hosted service is able to be quickly deployed to keep up with the pace of deployment of new assets.

About Industrial Evolution

Founded in 2000, Industrial Evolution was an innovator in offering Data-as-a-Service to the industrial market. We collect real-time process data from systems and devices, and make it available securely via the internet.

In January 2016, Yokogawa Electric Corporation announced the acquisition of Industrial Evolution to strengthen its provision of advanced solutions to the process industries. The acquisition of Industrial Evolution, a provider of cloud-based plant data sharing services, was carried out through Yokogawa Venture Group, Inc., a wholly owned Yokogawa subsidiary. The press release is available at: <http://www.yokogawa.com/pr/news/2016/pr-news-2016-0107-en.htm>.
