Phoenix, USA – September 14, 2012

Etrion Corporation Selects Power*Share™ to Monitor Solar Power Generating Assets

Project covers Etrion's entire solar portfolio which is located in Italy

Etrion is an independent solar power producer that owns and operates renewable assets. Etrion currently owns approximately 60 MW of operational, ground-based solar photovoltaic power plants in Italy.

This project will provide Etrion with real-time visibility of the operation that is managed on their behalf by 3rd party contractors through dedicated O&M contracts. Data will be collected in real-time from onsite data loggers via secure channels at 17 sites. It will be stored in our hosted PI System where it is made available to K Road as required.

About Industrial Evolution

Founded in 2000, Industrial Evolution was an innovator in offering Data-as-a-Service to the industrial market. We collect real-time process data from systems and devices, and make it available securely via the internet.

In January 2016, Yokogawa Electric Corporation announced the acquisition of Industrial Evolution to strengthen its provision of advanced solutions to the process industries. The acquisition of Industrial Evolution, a provider of cloud-based plant data sharing services, was carried out through Yokogawa Venture Group, Inc., a wholly owned Yokogawa subsidiary. The press release is available at:
